HOW IT WORKS

Choose your pasta shape, then choose your sauce. The price you see is the price of the dish. We are a small kitchen and we cook everything in the same space, so we cannot rule out cross-contact between dishes. If you have an allergy, please tell us before ordering and we will tell you honestly what we can and cannot do.

All our products, the pasta and the sauces, are made in house, following the classic Italian recipes. We use no preservatives and no colourings. Quality comes first.
